**Attachments:** USGS\_PRODUCED\_WATER\_CO.xlsx; DES\_UIC2.xlsx

Hi Dave,

Here's the source for produced water:

<http://energy.usgs.gov/EnvironmentalAspects/EnvironmentalAspectsofEnergyProductionandUse/ProducedWaters/TabId/139/PgrID/4384/PageID/3/Default.aspx#3822349-data>.  
I pulled the Colorado data out of the USGS table. Table is attached.

The table still needs some latitude and longitude data. You can plug the PLSS data into <http://www.earthpoint.us/TownshipsSearchByDescription.aspx> and Google Earth will fly you there where you can pick up the coordinates.

Also attached is our UIC data. Missing a few coordinates, which we will work on and send to you as we get them. Hope this helps with your project. If you want shapefiles, let me know.
